ABOUT

I am a committed MCA student with a strong passion for programming in JAVA and C++. I possess knowledge of web technologies like JavaScript, HTML, and CSS. As an enthusiastic learner, I am dedicated to applying my skills to practical assignments. I am also quick to adapt and eager to explore new technologies. I am looking for opportunities to contribute, learn, and grow. Let's work together and innovate!

EXPERIENCE

JPMorgan Chase & Co.: (Forage Virtual Internship)

Software Engineering Lite Job Simulation || Java Developer Intern

Developed and maintained Java applications, contributing to the full software development lifecycle, including design,coding, testing, debugging, and deployment, during a Java developer internship.

- **Skills:** JAVA, JDBC, JUNIT, OOPs
- **Certificate:** https://tinyurl.com/2ey4pfmu

PROJECTS

Personal Portfolio Website:

Developed and executed a dynamic portfolio website highlighting key projects with detailed case studies; increased inbound inquiries from potential clients by 40% in the first quarter

Skills: HTML, CSS, JavaScript, Bootstrap

Website: https://satyamkulportfolio.netlify.app

Netflix Clone Website:

Created a high-fidelity clone of the Netlify platform with HTML, CSS, and JavaScript, applying advanced web development techniques; optimized website interactivity, increased user retention by 50%, and drove higher conversion rates.

Skills: HTML, CSS, JavaScript, Bootstrap

Website: https://netflixduo.netlify.app

Car Rental Website:

Designed a user-friendly HTML, CSS, and JavaScript website for a vehicle rental company. This project serves as an excellent example of my ability to create interactive web apps that pay close attention to functionality and user experience, resulting in a 40% boost in conversion rates and a 65% increase in user engagement.

Skills: HTML, CSS, JavaScript, Bootstrap

Achievements

Google Cloud Arcade Program

Honed my cloud computing skills through Google Cloud Arcade, earning valuable skill badges that demonstrate my proficiency in Generative AI, Introduction to LLM, Google cloud storage etc. This program provided hands-on experience in solving real-world cloud challenges.

Also, I was achieved Gold League in Arcade (2023) by maintaining position in top 15 in leaderboard.
